How to Use These Templates

These four templates are designed to help Sub-Saharan African SMEs build a comprehensive business identity brief. Once completed, each template generates a structured AI prompt that you can paste directly into Claude, ChatGPT, Gemini, or any AI tool to receive a detailed, funnel-aligned marketing strategy tailored to your industry and context.

→ STEP-BY-STEP PROCESS

- **CHOOSE YOUR TEMPLATE** — Select the template that most closely matches your business type (Food & Agribusiness, Retail & Fashion, Fintech & Finance, or Health & Wellness).
- **FILL IN THE FIELDS** — Complete every section honestly. The more specific your answers, the more targeted your AI-generated strategy will be.
- **USE THE AI PROMPT** — At the end of each template is a pre-built AI prompt structure. Copy it with your filled-in answers and paste into any AI assistant.
- **REVIEW YOUR STRATEGY** — The AI will return a full marketing strategy including funnel-stage tactics, a 30/60/90-day plan, content ideas, and KPIs.
- **IMPLEMENT & ITERATE** — Apply the recommended tactics, track results, and update your template every 3–6 months as your business grows.

◆ THE MARKETING FUNNEL STAGES

Health & Wellness

For clinics, pharmacies, fitness centres, traditional health practitioners & wellness brands.

HEALTH & WELLNESS

For clinics, pharmacies, fitness centres, nutritionists, traditional health practitioners & wellness brands in Sub-Saharan Africa.

Industry Context: Healthcare and wellness marketing in Sub-Saharan Africa must navigate strong cultural beliefs about health, the parallel role of traditional medicine, increasing smartphone-based health information seeking, and growing middle-class interest in preventive health and fitness. Sensitivity, education, and establishing professional credibility are paramount. Stigma around certain health conditions must be carefully handled. The rise of telemedicine and health-tech apps is creating new marketing channels.

Best suited for: Private clinics & diagnostic centres, community pharmacies, fitness gyms & personal trainers, nutritionists & dietitians, mental health practitioners, traditional & herbal medicine practitioners, dental practices, optical centres, maternal health services, wellness product brands.

Funnel Stages Needing Most Attention — Select all that apply:

☐ Awareness	☐ Interest	☐ Consideration	☐ Conversion	☐ Retention	☐ Advocacy
------------------------------------	-----------------------------------	--	-------------------------------------	------------------------------------	-----------------------------------

Typical funnel challenge for health & wellness businesses: Health businesses most commonly struggle at Awareness (finding new patients before they are sick) and Advocacy (getting satisfied patients to actively refer others, which they often don't do unless prompted). Education-led content marketing is the most effective long-term strategy for both stages.

SECTION 7 — BRAND VOICE & STORY

Communication Tone — Select up to 3:

☐ Professional

☐ Friendly

☐ Bold & Energetic

☐ Inspirational

☐ Humorous

☐ Cultural / Community

☐ Educational

☐ Spiritual / Values-Led

Brand Story / Origin

Why did you start this business? A compelling origin story helps the AI write emotionally resonant content.

Cultural & Community Context

Cultural values, local traditions, community ties, festivals, or language preferences important to your brand.

Customer Testimonials / Social Proof

Paste real customer feedback or reviews. The AI can use these to craft social proof content.

Brand Keywords

5–10 words you want associated with your brand (e.g. fresh, trusted, affordable, local, fast).

AI PROMPT INSTRUCTIONS

You are a senior marketing strategist specialising in Sub-Saharan African markets.

Using the completed business identity brief above (Template 04: Health & Wellness), generate a detailed, actionable marketing strategy that includes:

A. STRATEGIC OVERVIEW — Summarise positioning and core challenge in 2–3 sentences.

B. MARKETING FUNNEL STRATEGY — For each relevant funnel stage (Awareness → Advocacy), provide 2–3 specific tactics, recommended channels, low-budget execution tips relevant to Sub-Saharan Africa, and an example content idea.

C. PRIORITY ACTION PLAN (30 / 60 / 90 Days) — A phased plan of top actions based on the business's current stage.

D. CONTENT STRATEGY — 5–7 content ideas tailored to tone, audience, and channels. Include WhatsApp-native and social-native formats.

E. BUDGET ALLOCATION GUIDE — How to allocate the available marketing budget.

F. METRICS TO TRACK — The 3–5 most important KPIs at this business stage.

Note: Apply health communication best practices: avoid fear-based messaging, use empowerment and education framing. Account for health misinformation sensitivity — recommend authoritative, professionally credible content. Address stigma around mental health and reproductive health where relevant. Suggest patient education content as the primary acquisition strategy.
